“

The B2B Decision-Makers study 2010 has shown:

Print and Online complement optimally!

The print-online combination of specialized media has a use of 91%!

”

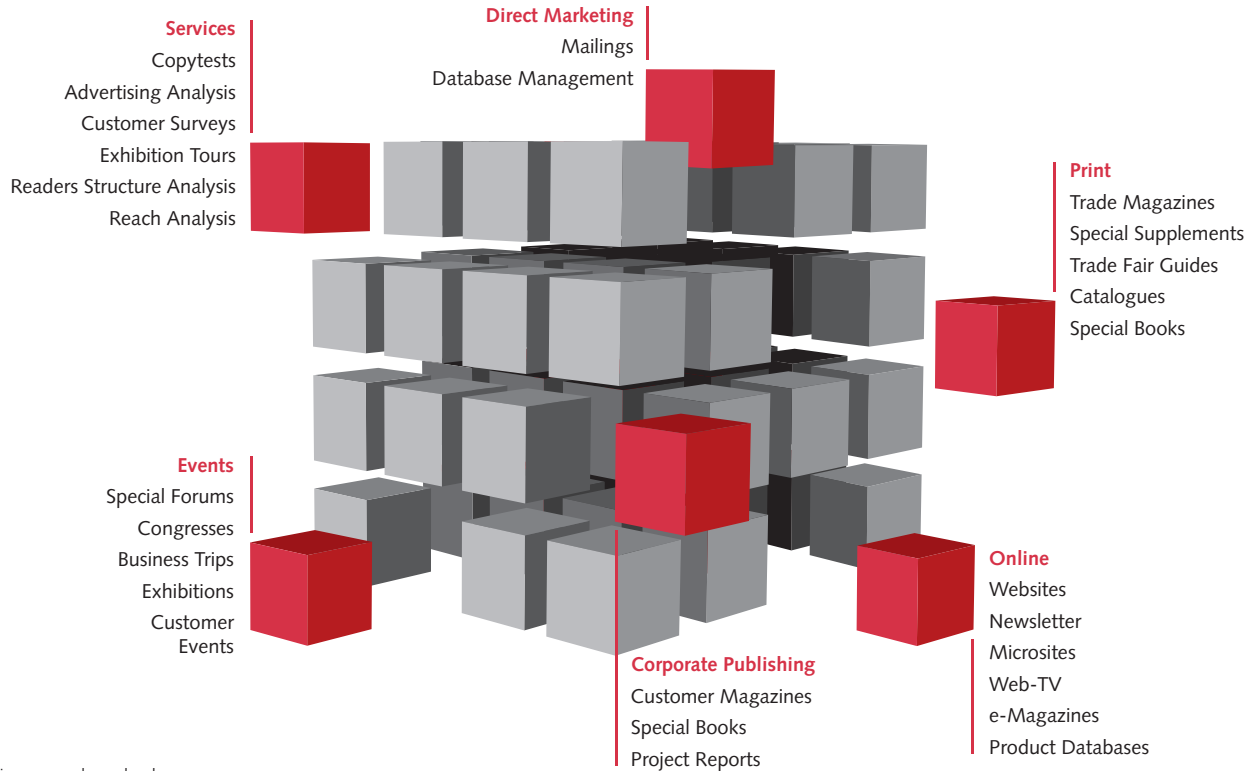

Klaus Wöhler

AT International - Mineral Processing

Communication solutions for the Mineral Processing Industry

More and more companies use the internet for their daily work. AT International online completes the competence of the journal and offers the reader an additional interactive component with a high efficiency. The communication solutions of AT International offers a perfect platform to use the crossmedia synergy.

1 Magazine: AT INTERNATIONAL

2 Nature of the journal

The journal **AT INTERNATIONAL** – Mineral Processing has been informing its readership for more than fifty years on developments and solutions to problems in mechanical process-engineering in the fields of minerals, coal, ores and secondary materials, such as construction or demolition (“C&D”) waste, and power-plant by products. The subjects covered include both technical, scientific and economic topics associated with the processing stages of comminution and agglomeration, screening and grading, sorting, dewatering and drying, materials handling, conveyance and storage, homogenization, blending and proportioning, sampling and quality monitoring. These are augmented by monthly spotlight features from the individual sectors, such as salt and potash, trends in coal preparation, and overviews focused on specific countries. The German/English edition is supplemented by five issues annually in English only, and one in Russian. In addition, the annual edition dedicated to the subject of screening, and the Market Focus Crushers, also published annually, provide a comprehensive overview of the products available on the market, complete with a tabular summary of the most important product properties.

- 3 Target group** General Manager and decision makers from the mineral processing industry
- 4 Published** 10 x German/English, 5 x English
- 5 format** DIN A4 (210mm width x 297 mm height)
- 6 Age/Year** 53rd year 2012
- 7 Subscription** Germany € 207,00
Foreign countries € 231,00
Single issue € 24,50
Students € 138,00
- 8 Organ:** –
- 9 Circulation control** IVW

RS/ECD = Redaktionsschluss/editorial closing date
AS/ACD = Anzeigenschluss/advertising closing date
ET/PD = Erscheinungstermin/publishing date

(Subject to alterations and additions/Änderungen und Ergänzungen vorbehalten)

1 Size of journal: DIN A4 (210 mm wide x 297 mm high
untrimmed: 216 mm wide x 303 mm high)

Print space: 186 mm wide x 270 mm high
4 columns, 45mm wide

2 Printing and binding methods: offset printing, adhesive binding

3 Data transmission: We accept the following data carries: CD-ROM, DVD
Transmission by FTP: upon request
by e-mail (up to 10MB): irina.felde@bauverlag.de
or druckdaten@bauverlag.de

For transmission of larger data quantities please contact:
Irina Felde, Telefon: +49 (0) 5241/80-401 09

4 Data formats: Please send your advertisement data as PDF with embedded
fonts, CMYK color space and/or special colors and 300
dpi resolution. Alternatively, you may also send us an EPS
file with fonts converted in paths and 300 dpi resolution
and /or a TIFF file in the CMYK color space with 600 dpi
resolution. Please note that for open files extra costs may be
charged, depending on the expenditure and costs required
for processing. Use, if possible, only PostScript fonts from
the Adobe or Linotype library. Should you use other fonts,
or fonts modified by you, please let us know. Under license,
we are not permitted to accept fonts supplied by you. If
the font used is not available to us, we have to convert
the part of the text concerned into paths, by means of a
graphics program and integrate it as graphics into your
document. Please contact us in such case.

5 Colors: Please make sure that the color palette contains in every case
cyan, magenta, yellow and black. Colors that do not require
their own print format must be marked as four-color prints.
Color mode: CMYK. RGB results in color differences.

6 Proof: Please attach a 1:1 laser printout to every data delivery for
status and text checks.

7 Data archiving: All data sent us must be copies; the original should be kept
and saved by you for extra safety until such time as the
magazine issue is published. The documents and directories
must have unambiguous order and page designations.
Please avoid, if at all possible, special characters, blank
spaces and umlauts. Please ensure that all of the elements
used are supplied. This refers in particular to images and
fonts that are embedded in EPS graphics. Data are archived;
unchanged repetitions are therefore generally possible.
However, no data warranty or guarantee is assumed.

8 Warranty: The printer shops that work for us can only expose what
exists on the data carriers you deliver to us. We assume no
liability what so ever for any deviations in texts, images or
colors

1 Web-address: www.at-online.info

2 brief description:

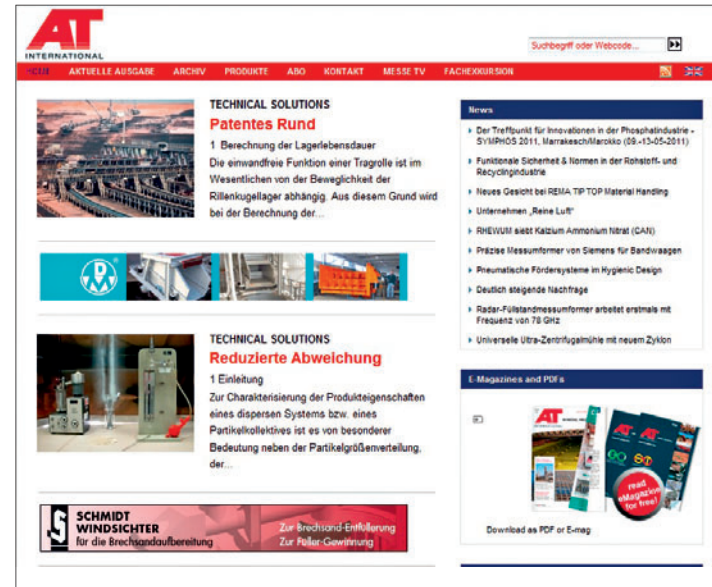

More and more readers use the internet for their daily work. The website of AT International completes the competence of the journal and offers the reader an additional interactive component with a high efficiency. Like in AT journal, the AT Homepage pays attention to the international exchange of experience as well as practical information for the daily work. AT International + AT Homepage (www.at-online.info) = a perfect platform to use the cross-media synergy

3 target group: General manager, chief engineers and chief technologists from the mineral processing industry.

Microsite

1 What is a microsite?

A Microsite is a compact Website with its own navigation within the Internet site www.at-online.info. As premium online advertising form with interactive addressing of the user, the Microsite generates special attention. Make use of the Microsite as part of your Crossmedia Package with your target group and as „Special“ on a specific topic (for this we are your exclusive partner).

2 Our services

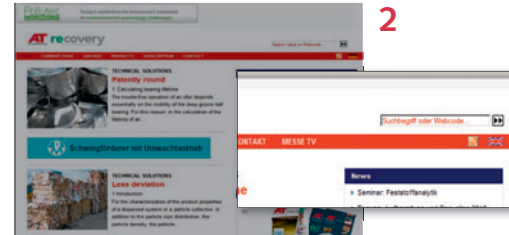

We offer three different versions of a Microsite: basic, classic and premium. Our performance and support has a bandwidth up to creating and monthly updating.

Crossmedia PR

Combination print and online

- 1 Print
We publish your contribution in the print issue of AT International. „Online plus“ will draw the readers attention with a box to the additional information in the Internet.
- 2 Online
The reader, upon entering the Webcode, will get directly and easily to your Online contribution with further information as pictures and images, videos and prospectuses.

AT Fachexkursion – Brücke zwischen Theorie und Praxis!

AT INTERNATIONAL lädt regelmäßig zu Fachexkursionen in deutsche Aufbereitungswerke ein. Diese Exkursionen erschließen Studierenden aus dem Ingenieurbereich ein spezielles Fachgebiet der Verfahrenstechnik und des Maschinenbaus.

Schwerpunkte dieser Veranstaltungen sind der Blick in die Praxis, der Besuch eines Aufbereitungswerkes und die Einführung in die Aufbereitung mineralischer Rohstoffe. Erfahrene Fachkräfte aus dem Anlagenbau referieren zu einzelnen Verfahrensschritten in der Aufbereitungsindustrie. Kombiniert werden diese Vorträge mit einer ausführlichen Werksbesichtigung, bei der die Studierenden die Verfahren von der praktischen Seite kennenlernen. In persönlichen Gesprächen berichten die Vortragenden aus ihrem beruflichen Erfahrungsschatz und zeigen den Studierenden zukünftige Tätigkeitsfelder auf.

Für 2013 sind weitere Veranstaltungen geplant.

Wenn Sie Ihr Unternehmen auf dieser etablierten Fachexkursion als interessanten Arbeitgeber präsentieren möchten, melden Sie sich bei uns. Gerne geben wir Ihnen weitere Informationen.

Sie möchten auch als Teilnehmer dabei sein? Rufen Sie uns an!
